TORN BY A TORNADO

Rumors of Heavy Loss of Life and Property Near Peterman and Burnt Corn, Ala.

TEN KNOWN TO HAVE BEEN KILLED

On Account of the Bad Condition of the Wires Communication is Very Difficult.

H. N. Salter, His Mother and Child Were Riding When Overtaken By the Storm—A Falling Tree Crushed Them to Death.

Birmingham, Ala., April 15.—Specials from Evergreen, Ala., say: News has just reached here by telephone confirming rumors of heavy loss of life and property in the neighborhood of Peterman and Burnt Corn, wrought by the tornado which passed near there Monday.

Ten persons are known to have been killed and numerous barns, residences, fences and outhouses were swept away, entailing a loss which will reach high in the thousands. On account of the bad condition of the wires communication is difficult and the only name that could be obtained of the dead is Henry Salter, a well-known planter.

H. H. Salter, his mother and child were riding along a road, and when opposite a clump of trees the storm overtook them, the wind uprooting the trees which fell across the wagon, crushing all of the occupants to death.

Several residences were completely demolished, the timbers falling on the occupants, killing and injuring all within the buildings. It will probably be several days before a correct list of the casualties can be obtained, as there is neither telegraph nor railroad connection. The heavy rains have rendered the roads almost impassable. Peterman is in Monroe county, just across the line from Conecap, and is not within 25 miles of a railroad or telegraph station. All news so far received has come over telephone lines which are several miles from the path of the storm.

This is the second man killed at "Big Windy" in the past few years.

In another game in a different portion of the county J. B. Willis swiped a razor across Lee Winfrey's throat, cutting a gash about three inches long, but not of sufficient depth to kill.

The Game Warden Offered to Round Up a Lion or Two For President Roosevelt to Shoot at But the Latter Declined.

Cinnabar, Mont., April 15.—President Roosevelt broke camp Monday and is slowly working his way to Maj Pitcher's headquarters at Fort Yellowstone. He is expected to arrive at Yancey's Tuesday night or Wednesday morning and to reach the fort some time Thursday. He will remain there one day and then will start for Norris, where the geysers are. There is a good deal of snow between the fort and Norris and the engineer corps is at work opening the road. Word received from the president Tuesday was to the effect that he is in the best of health and thoroughly enjoying his outing. In addition to horseback riding, he takes long walks over the mountain trails.

Notwithstanding reports to the contrary, the president has not fired a shot at a mountain lion, and has no intention of doing so. It is estimated that there are 500 of these animals in the park and they are killing large quantities of deer and elk. A determined effort is being made to exterminate them and "Buffalo" Jones, the game warden of the park, together with his scouts, is slaying them on every possible occasion. Mr. Jones has offered to round up a lion or two for the president to shoot at, but the latter has declined to do so.

KENTUCKY CROPS.

Summary of Their Condition at the Close of the Past Week as Viewed by the U. S. Climate and Crop Bureau.

The temperature averaged considerably above the normal during the week. Showers occurred in all portions of the State Tuesday night and Wednesday, and the week closed with heavy showers in progress. The rain delayed farm work to quite an extent in many places, but all vegetation advanced rapidly.

Wheat is in excellent condition and the present outlook for a large yield is unusually good. Winter oats and rye are also very promising. A smaller acreage than usual of spring oats has been sown. Corn planting has only begun and is progressing slowly on account of rain.

The tobacco beds were generally planted quite late, but they are coming up nicely and the early ones are growing rapidly.

Peaches were badly injured by frosts and freezing weather and the outlook is very poor for the crop. Some of the later varieties will give a partial crop. Other fruits are, in most localities, in fair condition.

Gardens are very backward, planting having been delayed by rain.

Grass is in splendid condition and much farther advanced than is usual at this time of year. Stock of all kinds are in very fair condition.

AN HEIRESS FOUND.

Mathilda Youngquist, Thought to Be Dead, Living Among the Cree Indians.

IDENTITY ESTABLISHED BY A RING.

Her Father and Mother Killed in a Raid by Red Skins When She Was a Child.

The Little Girl Carried Away and Became a Member of the Tribe—She Is Heiress to a Large Estate in Sweden.

Chicago, April 15.—A special from Kalispel, Mont., says: Mathilda Youngquist, long thought to be dead, heiress to a large estate at Stockholm, Sweden, has been found living among Cree Indians as a member of the tribe. A gold ring given her by her father and mother who were killed in a raid by the Crees many years ago has established her identity.

When John Anderson, a relative, appeared in this part of Montana a year ago and made inquiries for a family named Youngquist, no one could aid him. Finally he met an old resident who remembered that, many years ago, Frank Youngquist had tried to operate a ranch in the extreme northern part of the state, near what is now the Blackfoot reservation. One day the ranch was raided by Cree Indians, who killed Mr. and Mrs. Youngquist and carried away their little girl, Mathilda, then 4 years of age.

Anderson Tuesday met the girl with a band of Crees. She told him she had been carried away by the Indians after her father and mother had been killed and that since then she had been with the Indians and was the widow of a member of the band, who was killed in a snowslide several weeks ago.

She remembered nothing of her parents, she said, except that they were white like Anderson. All she had left to remember them by was a little gold ring. There was an inscription on the inside of this ring, but as she could not read she did not know what it was. Anderson read the inscription which established the identity of the owner of the ornament. It reads: "To Mathilda, from Papa and Mamma Youngquist, 1885."

Anderson and the girl will go to Sweden immediately.

MISSISSIPPI, the State which furnished a head for the Confederate government and was the second to join in the movement for secession, has just completed a new Capitol. The State Secretary marked the occasion by sending to Robert T. Lincoln a letter containing these patriotic sentiments:

"We of the South now realize the greatness and goodness of the character of Abraham Lincoln and would honor his memory. Nothing that we could do would add to his fame. We can, however, show our respect and love for him. Permit me, therefore, in the name of the State, to invite you to place a portrait of President Lincoln in the new Capitol of Mississippi, that it may symbolize his love for his country, his devotion to duty, and his heartfelt sympathy for the Southern people."

THE Lexington Leader claims that the State Teachers' Association will hold its annual meeting in that city instead of in Maysville. The association selected this city as the place of meeting, but the Leader claims the change has been made on account of the prevalence of smallpox here. It looks like the Executive Committee has acted rather hastily in the matter, and without any investigation of the real condition of affairs here. While there are a number of cases of the disease at present in the city, yet the prospect now is that it will be completely stamped out within the next two weeks, and the convention is not to be held until the 24th-26th of June. Besides it was only a few weeks ago when there were more smallpox cases in Lexington than Maysville now has, and it certainly is not just for the Executive Committee to use present conditions here as a pretext for their action. County Superintendent Wells, who was instrumental in securing the convention for Maysville, was not even notified of the contemplated change in the place of the convention. A committee of citizens should be appointed to enter a protest, and to secure a reconsideration of the committee's action.

BELLAIRS, the swindler and ex-convict who as an Associated Press representative, sent the news of General Leonard Wood's "marvelous success" as an administrator in Santiago first, and subsequently in Havana as Governor General, has been exposed. He is now known as a man named Ballentine, from Norfolk County, England. His picture is in the New York Rogues' Gallery. He is described by Byrnes as the most successful confidence man of the world. He was convicted of forgery in Florida, and three years after the expiration of his term he was, under the name of Bellairs, informing the American public of Cuban affairs. He was Wood's guide, counsellor and friend. He was on, it is seriously asserted, three distinct Cuban payrolls. He then, after "making Wood," was sent to the Philippines and for two years the Philippine news came to this country filtering through this moral sewer. Exposure came to him through his book, in which he denounced Gov. Taft and extolled Wood and declared that Wood should be sent to replace Taft. Taft's friends exposed Bellairs. It the Republican "grafters" fight frequently enough we may learn all the truth about this administration, but they're not likely to. Common cause will assert its influence.

There is no use wasting money on paint, and it is a waste to apply anything but pure lead, zinc and oil. Half the brands of ready-mixed paints contain naptha, resin, whiting, etc. Some contain no lead at all. You know why these makeshifts are used. Make sure of absolutely pure paint. You get it in

Mastic Mixed Paint.

This is the paint that the U. S. Government uses on barracks, etc., in the Southwest and on the Alkali plains where the sun and heat is hardest on paint. Nobody disputes the reliability of this brand. It is all that a paint should be. Goes farther, covers better and lasts longer than any other.

It is Surprising the Amount of Business We Did in the Past Six Weeks,

Considering the embargo put on Maysville's business during that time. Our sales, however, compared with last year's corresponding time show such a decrease that it will require heroic treatment to restore our 1903 spring business to its normal volume.

It is not now a question of ordinary legitimate profit, it is simply a question of doing four months business in two months.

Convince yourself by looking in our East Window and see the Suits we have marked down to $15. Not a Suit in the lot that under ordinary circumstances would have sold for less than $18 and $20.

In same porportion every Suit in the house is reduced. In Children's and Boys' Suits the same conditions will prevail.

Our Shirt stock is at its best. The Manhattan and Faultless, the two best brands in the country (confined to us) will please you.

Don't forget that every pair of Hanan and Douglas Shoes we sell you, you are guaranteed another pair or the money back if they give unreasonable satisfaction.

COURT HOUSE MOUSE

Ran Up the Trousers Leg of a Former Maysville Man Charged With Murder.

SPRINGFIELD, OHIO, April 13.—An amusing incident occurred in the court room during the Harris murder case this afternoon. A mouse ran up the trouser leg of the defendant, William Harris, colored, who is being tried for killing George Farrell. Harris weighs about 400 pounds, but he danced around for a few minutes like a kitten. The mouse made its escape.

The State rested to-day and the taking of testimony for the defendant was begun. They will try to prove that Harris was insane at the time of the shooting. A witnessed was called who testified that Harris became infatuated with a girl at Maysville, Ky., and attempted to commit suicide because she refused to marry him.

Rev. J. J. Dickey will preach at the Downing school house next Sunday at 3 p. m. and, if desirable, will organize a Sunday school.

Sure Cure For Smallpox.

[Exchange.]

A gentleman writes he is willing to risk his reputation as a public man that the worst case of smallpox can be cured in three days and not leave a mark by the use of one ounce of cream of tartar, dissolved in a pint of hot water, and when cold drunk at intervals. It has cured thousands he says, never leaves a mark, never causes blindness and avoids a tedious lingering.

Governor Beckham has designated Colonel R. D. Williams and Colonel J. Embry Allen, of Lexington, to represent Kentucky as aides on the staff of the Grand Marshal of the mammoth parade at St. Louis, on April 30. Twenty-eight States have now responded to War Department's call for their most eminent soldier citizens, and the staff will be much more than a glittering show of gold lace. Each State was asked to name two members in addition. Paymaster General Alfred Elliott Bates, of the regular army, and General Castleman, of Louisville, will serve as special aides.

Mrs. J. B. Gibson, of 113 West Fourth street, says: "The value of Doan's Kidney Pills is quickly made manifest by their use. I obtained them at J. Jas. Wood & Son's drug store, corner of West Second and Market streets, and although my experience was not extensive, it was because their curative powers were so quickly demonstrated that extended use was unnecessary. The quick relief from backache, which was obtained from the use of Doan's Kidney Pills, causes me to recommend this valuable medicine whenever opportunity offers."

NOW FOR A GENERAL OVERHAULING,

Cleaning and Painting Period!

It's the painting part we're most interested in.

Perhaps it's the house you're going to paint, the barn or some article of furniture.

It may be the family carriage, buggy, wagon or farm implement.

It really makes no difference what it is, if it's anything paintable we bid for your trade with THE VERY BEST article that's made—the **U. S. READY-MIXED.**

We know that other dealers make the same claim for really inferior grades, and some manufacturers extravagantly shout the merits of their product when there is really no comparison between these mixtures and the high-grade Paints made by the United States Paint Company, whose agents we are in this locality and whose goods we are permitted to guarantee.

One important point that should not be overlooked is the fact that you pay no more for quality when you buy the U. S. Paint than you are asked for the cheaply-made stuff.

Local testimonials furnished on request, and color cards, showing a large variety of beautiful shades, yours for the asking.

When buying your Spring outfit from me. The clothing I sell you, which are all made to measure and which range from $15 up, ARE NOT YOURS IF NOT RIGHT. No matter if made in New York, Cincinnati, Aberdeen or in "my house," the construction of these garments is through me from start to finish, which in itself is sufficient guarantee that they are just so when you become their custodian. I am now showing some very handsome designs, a variety of weaves in new colors and novel color combinations, the effect of which is very striking. You stand in your own light should you fail to call to investigate.

The firm agrees that the tomatoes shall be paid for in cash at a certain price, and it is claimed that this price will make tomatoes, and other like produce, pay better than raising tobacco.

IMPORTANT ANNOUNCEMENT OF THE MAYSVILLE GAS COMPANY.

Under 2000 cu. ft. of Gas $1.50 per 1000.

Over 2000 cu. ft. of Gas and under 3000 cu. ft. $1.25 per 1000.

3000 cu. ft. of Gas and over $1 per 1000.

At a meeting of the Board of Directors of the Maysville Gas Company March 28th, 1903, it was ordered that on an after the first day of April, 1903, the above sliding scale of price of gas for all purposes, fuel and illuminating, should go into effect for all private consumption, and that all rates and discounts heretofore made are hereby abolished.

It was further ordered that after the first of April the old rule of the company "gas will be turned off if account is not paid with five days after presentation" shall be enforced, impartially and indiscriminately, regardless of whom it may concern. (This action was taken not to appear arbitrary nor with the idea that the accounts of the consumers were not perfectly good at any time during the month, or a year later for that matter, but for the good of all concerned and in order that this part of the business of the company might be taken up at a specified time during the month and disposed of, and further in order that the time and thought of the company's agents and employees, now so largely occupied with this work of collecting, might for the balance of the month be diverted toward giving consumers of gas better attention and more efficient supply and service.

It was further ordered that beginning with the first of May and for each and every month thereafter, the monthly statement of account of each consumer should be delivered to said consumer by an agent of the company on the first day of the month, or the second day, if the first comes on Sunday, and that said account shall thereafter within five days be due and payable at the office of the company on Court street, Maysville, Ky., and if not so paid, gas will be promptly shut off.

The gas company further announces that, after the first day of April, they will handle and sell at cost price to gas consumers any of the great variety of gas stoves and ranges made by and shown in the catalogue of the Detroit Stove Works, Detroit, Mich., which price will be a sum equivalent to 50 per cent. discount from the list prices in said catalogue. These stoves and ranges will be sold for cash only, or according to the terms of a printed lease, whereby easy payments are extended over a period of from twelve to seventeen months. For instance, take a gas range listed in catalogue at $26, the gas company will sell this range to consumer for $13 cash or for $2 80 cash at signing of lease and 60 cents a month for seventeen months, at the expiration of which time the range is sole property of consumer. The company has selected to handle the Detroit Jewel Gas Range on account of its acknowledged superiority and wide reputation for durability and economical consumption of gas.

The gas company will also handle, at cost price to consumer, the fixtures and mantles of the Welsbach Company in all of their many attractive varieties.

Before closing this announcement the gas company wishes to publicly express appreciation of the eminently fair, just and courteous treatment accorded them by his honor, the Mayor, and the Board of Council, particularly the Chairman and members of the Gas Committee of that body, through whose efforts in behalf of the private consumers, the above concession in the price of gas is now announced.

With the assurance to the citizens of Maysville that it will be the earnest effort of the company and its agents to at all times give them their best possible service at the least cost, we beg to remain, very respectfully, MAYSVILLE GAS CO.

P. S.—On and after April 1st the gas company will have on exhibition at the plumbing establishment of Mr. Larry Langfels on Market street, samples of the Detroit Jewel Gas Ranges, to the inspection of which those interested are cordially invited. You can leave your order for a range with any representative of the gas company, with Mr. Langfels or your regular plumber, with whom you will have to make arrangements for the connecting and fitting up of range in case of the placing of order.
